

DOUBLE WALL ALUMINIUM ROLLER SHUTTERS

The Double Wall Aluminium roller shutter is a unique aluminium door with a double wall cavity extrusion. It is the only dust, sound and weatherproof product of its kind in South Africa. It is highly suitable for motor industry paint plants, amongst other applications.

Benefits

- Dust, sound and weatherproof
- Able to withstand high wind pressure
- Its strength exceeds that of any other steel slatted product
- Can be modified to protect against gas, petrol bombs and high wind pressures
- These roller shutters feature special guides
- The guides are fitted with PVC edges for silent running and no lubrication is required
- These doors also feature aluminium T-Sections to resist weathering
- Double Wall Aluminium doors are visually appealing.
- Custom manufactured
- Durable and reliable
- Economical installation and maintenance
- Optimised utilisation of space

Material

Double Wall Aluminium roller shutters are manufactured from 100mm x 8mm aluminium slats with a double wall cavity extrusion.

Size Range

Maximum width is 7000mm
Maximum height is 4000mm
Special sizes can be considered on request.

Finishes

Double Wall Aluminium roller shutters are available in the following finishes:

- Mill finished
- Anodised in either bronze or natural
- Powder coated in one of 16 UV / Non UV resistant polyester / epoxy colour options.

Roll-Up Serranda is the only factory of its kind in the country with its own state-of-the-art powder coating plant.

Operation

- Push up options are available within certain size limits
- Chain operation through endless chain
- Crank operation includes a manually operated gearbox in place of the endless chain
- Electrical options available to suit specific requirements
